# Suspected Adverse Drug Reaction (ADR) Reporting Form

Pharmacovigilance Clinical Documentation Standard

---

## 1. Patient Information

*Confidentiality Notice: Patient identity is strictly protected. Record initials only.*

| Field | Value / Details |
|---|---|
| **Patient Initials** | Person |
| **Age** | [ e.g., 45 Years ] |
| **Gender** | [ Male / Female / Other ] |
| **Weight** | [ e.g., 68 kg ] |

---

## 2. Suspected Adverse Reaction (ADR)

| Field | Details |
|---|---|
| **Reaction / Event Description** | *Provide a brief description of symptoms (e.g., severe maculopapular rash, pruritus)* |
| **Date of Onset** | Date |
| **Date of Recovery / Resolution** | Date |

---

## 3. Suspected Medication Details

| Drug Name | Dosage & Route | Frequency | Therapy Start Date | Therapy Stop Date | Indication for Use |
|---|---|---|---|---|---|
| *e.g., Amoxicillin* | *500 mg, Oral* | *TDS (3x/day)* | Date | Date | *e.g., Upper Respiratory Infection* |
| | | | | | |

---

## 4. Causality & Rechallenge Assessment

- **Dechallenge:** Did the reaction / event abate after stopping or reducing the dose of the suspected drug?
  - ☐ Yes
  - ☐ No
  - ☐ Dose not changed / Unknown
  - ☐ Not applicable
- **Rechallenge:** Did the reaction / event recur upon reintroducing the suspected drug?
  - ☐ Yes
  - ☐ No
  - ☐ Rechallenge not performed
  - ☐ Unknown

---

## 5. Medical History & Seriousness Assessment

### Medical History

Record relevant underlying conditions, organ dysfunction, concomitant medications, or known allergies:

- *e.g., History of mild asthma, penicillin allergy, chronic renal impairment.*

### Seriousness Criteria

Does the reaction meet any of the following mandatory criteria for a **Serious Adverse Event (SAE)**?

- ☐ Patient Hospitalization / Prolongation of existing hospitalization

- [ ] Life-threatening event
- [ ] Congenital anomaly / Birth defect
- [ ] Persistent or significant disability / Incapacity
- [ ] Medically significant event
- [ ] Death

---

## 6. Outcome & Reporter Information

### Patient Outcome

- [ ] Recovered / Resolved
- [ ] Recovering / Resolving
- [ ] Not Recovered / Ongoing
- [ ] Fatal
- [ ] Unknown

### Reporter Details

*Submitting an ADR report is a professional duty and does not imply an admission of error or carry legal consequences for the healthcare professional.*

| Field | Contact Information |
| --- | --- |
| **Reporter Name** | Person |
| **Profession / Title** | [ e.g., Physician, Pharmacist, Nurse ] |
| **Institution / Health Facility** | Place |
| **Contact Email / Phone** | [ Email address or phone number ] |
| **Date of Report** | Date |

---

# Pharmacovigilance Regulatory Guidance

## Essential Mandatory Fields

When submitting to national pharmacovigilance regulatory databases (such as NCC, PvPI, or VG-Flow), ensure the following five core elements are fully completed:

1. Identifiable Patient (Initials)
2. Suspected Adverse Event Description
3. Date of Event Onset
4. Suspected Drug Name
5. Identifiable Reporter Details
